Coverage:

Paramedic Programs

	Number of Main Sites	Number of Alternative Sites
VCCS Institutions	6	6
Private Institutions	6	5

Intermediate Programs

	Number of Main Sites	Number of Alternative Sites
VCCS Institutions	4	1
Private Institutions	8	0

What is OEMS's plan or "next steps" to increase the 92 percent coverage within a 30-mile radius of accredited sites and to increase the number of accredited sites?

The OEMS Accreditation program is still growing and building on its own—with little or no specific action being taken by the Office. However, the Division of Educational Development continues to market to and educate ALS-Coordination and Regional Councils during each of the EMS Instructor Updates conducted throughout the year [there are 10 updates held per year at a minimum]. The Division continues to encourage participation with the accreditation program whenever and where ever we have an audience.

The Office has recently been in communication with the Tidewater EMS Council and they are planning to submit a self-study sometime during FY08 which will bring training to the Eastern Shore, an area where training is desperately needed. According to our calculations, that will boost the coverage by accredited training sites to 96% of the Commonwealth.
